

Anca-Daniela Marineci

Profile

I am **ambitious, responsible, creative** and committed to making a difference in the current evolving world. The areas of **econometrics, labour economics, policy analysis and applied statistics** are of particular interest to me, and I am eager to explore them further. As experience shows, I am able to work in a diverse, dynamic environment, both independently or in a team. I enjoy solving challenges and collaborating with others, while also working on my **self-improvement** and **professional growth**. I am motivated by a strong interest in research, both in **academic settings** and **applied institutional environments**.

Education

August 2026 - July 2028 Tilburg University, The Netherlands

Research Master in Economics, **Academic Economics Track**

Relevant Courses: Quantitative Methods, Individual Decision Making, Empirical Finance, Health Economics, Experimental Economics

August 2023 - July 2026 Tilburg University, The Netherlands

Bachelor of Science in **Econometrics and Operations Research**

Relevant Courses: Data Analytics for Non-life Insurance, Games and Economic Behaviour, Stochastic Operations Research Models, Econometrics for Policy Analysis.

Bachelor Thesis: "Exploring the Impact of State-Subsidized Childcare on Fertility Intentions and Family Planning in Germany", featured data from: the German Socio-Economic Panel, the Generations and Gender Survey and Germany's Regional Database, employed: Random Effects Probit and Logit Models for correlational studies and the Synthetic Difference-in-Differences Model for causal inference.

Computer Skills

- **Programming for Econometric Analysis:** I am an experienced user in applying the programming languages R and Python and an intermediate user of Stata and MatLab.
- **Administrating and Managing Databases:** I am an intermediate user in object-oriented relational databases such as Oracle, MS Access and My SQL.
- **Other computer skills:** I have advanced knowledge in using the Microsoft Office Suite (Word, Power Point, Excel, Power BI).

Language Skills

- **Romanian:** Native speaker
- **English:** Full professional proficiency
- **German:** Limited working proficiency
